# ™gel

#### Description

#### A food for special medical purposes.

TYR gel™ is an unflavoured powdered phenylalanine and tyrosine free protein substitute containing essential and non-essential amino acids, carbohydrate, vitamins, minerals and trace elements.

# Indications

TYR gel is for use in the dietary management of Tyrosinaemia from 6 months to 10 years of age.

### **Dosage and Administration**

To be determined by the clinician or dietitian, and is dependant on the age, body weight and medical condition of the patient.

The product can be used individually or interchanged to meet individual protein requirements.

1. The daily protein substitute requirement is given as TYR gel.

2. Additional protein is provided from exchanges of natural protein to provide restricted amino aicds in controlled amounts, which is essential for growth and development.

3. Foods high in carbohydrate and fat, but low in protein, should be provided to supply the remainder of the energy.

# TYR gel (24g) = 10g PE

# **Preparation Guidelines**

TYR gel can be either taken as a gel or as a low volume drink.

#### For gel:

Empty the contents of the sachet into the beaker.

Add approximately 30ml of cold water. Secure the lid and shake well for 10 seconds.

Leave to stand for 2 minutes, allowing a smooth gel to form. Consume with a spoon.

#### For a low volume drink:

Empty the contents of the sachet into the beaker.

Add approximately 80ml (half way up the beaker) of cold water. Secure the lid and shake well for 10 seconds.

Drink immediately.

Water or permitted drinks should be taken after TYR gel.

# **IMPORTANT NOTICE**

Must only be given to people with proven Tyrosinaemia under strict medical supervision.

Suitable from 6 months to 10 years of age.

Diet must be supplemented with natural protein, water and other nutrients in prescribed quantities to supply phenylalanine, tyrosine, fluid and general requirements.

Not for use as a sole source of nutrition.

For enteral use only.
